PROFILE

Graphic & Motion Designer with seven years of agency experience — at AdsomeFish, dentsu's affiliate in Georgia, at Media Solution and at Promedia, Tbilisi — producing campaign assets for global and local brands. Across motion, digital, print and out-of-home, from global-master adaptation to original campaign development, with a particular strength in localisation: international campaigns rebuilt as culturally and typographically precise local executions.

Tools

After Effects (primary) · Photoshop · Illustrator · Adobe Animate · Google Web Designer (Google HTML banners)

SELECTED CLIENTS

Samsung

multi-year account

Galaxy launches, Bespoke AI and Privacy Display.

My role: global campaign adaptation and Georgian localisation across social, digital, print and outdoor.

The Coca-Cola Company

and brands in its portfolio such as WATER MTIS

Seasonal and rewards-app campaigns; stadium advertising at the Parc des Princes.

My role: half the Coca-Cola work built from their material and half adapted from the global master; the MTIS campaign created outright, perimeter-board format included.

Nestlé

and brands in its portfolio

Nescafé, Nesquik, KitKat, Maggi, Felix, Purina.

My role: Georgian adaptation across the group — one duration table, each master re-laid out for local type and every format the market runs.

Georgian Rugby Union

and local brands

Original campaign development.

My role: concept, visual system and full-format rollout — Rugby Union, SPAR, Cito, Gifthumb, Marao, Nixar, Biltmore, Freedom Music, TKT.GE.

EXPERIENCE
