Professional Recommendation Letter

I am pleased to recommend Mr. Gedevan Kuprava, an accomplished Graphic and Motion Designer with more than a decade of professional experience in the creative industry.

Throughout our collaboration, Gedevan consistently demonstrated a rare combination of creative judgment, technical expertise, and reliability. He has contributed to a wide range of international projects and worked on campaigns for globally recognized brands, including Nestlé, L'Oréal, Mastercard, and Avon. His experience across these accounts has required him to adapt to different brand identities, creative standards, markets, and communication objectives while maintaining consistently high-quality execution.

Gedevan is equally comfortable developing digital campaign assets, producing motion graphics and video content, and preparing print-ready materials for production. This broad skill set allows him to manage projects across multiple formats while maintaining a consistently high standard of execution.

One of Gedevan's strongest qualities is his ability to understand the broader purpose behind a creative brief. Rather than simply executing individual tasks, he considers the brand, audience, communication objective, and final application of the work. As a result, his designs are not only visually strong but also relevant to the wider marketing and communication strategy.

He is particularly effective in demanding working environments where priorities can shift quickly and deadlines are often tight. Gedevan manages high volumes of creative work efficiently, pays close attention to technical and brand requirements, and remains dependable even when projects require rapid turnaround.

He is also highly professional in his collaboration with colleagues and stakeholders. Gedevan communicates clearly, responds positively to feedback, and works constructively with different teams throughout the creative process. His experience enables him to take ownership of assignments independently while also contributing effectively as part of a wider team.

Gedevan would be a valuable addition to any organization seeking an experienced visual designer capable of taking creative projects from concept through final production. I recommend him with confidence and would be very happy to collaborate with him again in the future.

CEO, Keso Antelidze
